- While the preceding table illustrates the performance for the year 2022 according to the Financial Statements, it does not include any reduction for the necessary funding from Operations for Reserve Funds that are included in GVR's 2022 budget.
- The Home Resales were 30 (40%) more than budgeted during the month of January totaling 105 which is 31 (42%) more than the previous year January 2021 home sales (page 10). GVR offsets these sales with an allowance for Membership Change Fee refunds for Members who transition from a primary residence. This allowance currently totals \$309,760 (page 2). Please note the additional information on the 2022 Member Properties Report. The budgeted number of homes are highlighted in green and the prior two years activities for 2020 and 2021 are now included on the report (page 8).
- The January 2022 Statement of Financial Position (page 2) reports the Total Net Assets to be \$31,630,904 which is a \$272,004 decrease for the year.
- The Operational cash on hand is \$1,038,117 (page 2). When combined with Operational Cash Investments at JP Morgan, total Operational Cash equals a total of \$6,549,749 which is a \$61,443 increase during the month of January.
- The Net Fixed Assets are \$18,090,989 as of January 31, 2022 (page 2). Total net closed out Capital Purchases for the year to date are \$209,005 (page 9).
- Total Current Liabilities increased to \$7,359,673 (page 2) due to Deferred Dues revenue.
- The detail report of Capital Purchases is not included with this January 2022 financial report. This cumulative report that shows activity for all months will be included with the February financial report. A brief summary of the \$209,005 purchased assets in January 2022 is included on page 9.
- Designated Net Assets equal \$13,317,517 (detailed on pages 4 5) which reflects a net increase of \$870,704 for the month of January, 2022. The year to date net unrealized investment loss on these investments are \$426,432 (page 3 and 5) which represents a 3.1% January decline which appears reasonably in line with the performance of IPS benchmarks. The non-designated unrealized losses year to date are \$60,371 and the total Investment Income earned year to date is \$24,677 (page 3).
- The Statement of Activities (page 3) indicates that Total Year to Date Revenue is \$1,097,601 which is 10% over budget and 22% more than the prior year. This large positive variance is due primarily to better than expected Capital Revenue. Tenant Fees and Transfer Fees revenue are both significantly better than budgeted and prior year for January.

- The Cash Requirements Report for 2022 is included on pages 6 through 7. These
  projections are exclusively for the purpose of estimating balances of Operating and
  Designated cash balances and determining timing of investments.
- Most expense category amounts are under budget through January 2022 and the total expenses are \$882,802 which are \$98,152 (10%) under budget and 12% more than the prior year (page 3). Most of the negative variance from prior year is due to higher Program expenses. The following is a high-level summary of the amounts and percentage variance to budget for the year to date 2022:

- The staff calculation of the 10% threshold requirement of Member approval for annual
  payments on contracts is included on pages 10 through 14. Regardless of this
  calculation, both the Staff and Board currently recommend placing a West Center Arts
  Complex on a ballot if the project is to be considered. However, this report illustrates the
  methodology for calculating the 10% threshold.
- A summary analysis of the utilities savings that GVR is receiving due to the Solar Energy Project is included on page 15
- An inflation report that includes the rising trend of CPI over the past 12 months is included on page 16.

## GVR Electric Savings due to Solar Power

| Average Decrease in cost / rate | \$<br>(87,939)<br>-19% | \$<br>(0.018)<br>-13% |

Several factors influence this cost savings analysis: Weather, usage, pandemic, etc.

GVR is saving approximately to \$90K per year in electricity costs compared to the expected \$90 - \$100K

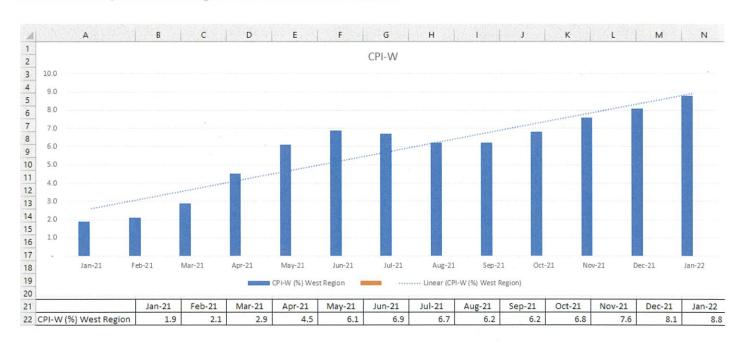

#### **INFLATION REPORT**

Inflation continues to increase. For Jan-22, it was 8.8% in the West Region. Nationwide, "inflation surged 7.5% on an annual basis, even more than expected and highest since 1982" (1).

### Primary concerns for GVR are:

- 1. Interest rates will rise. We currently have no debt.
- With this high inflationary rate, the Labor Market will continue to get more competitive.
- 3. Construction costs will continue to rise.
